

the 1990s, the number of people in the world who are illiterate has increased from 1.2 billion to 1.5 billion.

There are many reasons for this. One is that the population of the world is growing so fast that the number of people who are illiterate is increasing. Another reason is that the quality of education is so poor that many people who are literate are unable to read and write.

There are many ways to reduce the number of illiterate people in the world. One way is to improve the quality of education. Another way is to provide more opportunities for people to learn to read and write.

It is important to reduce the number of illiterate people in the world because illiteracy is a major barrier to economic development and social progress. People who are illiterate are unable to take advantage of many opportunities that are available to literate people.

There are many organizations that are working to reduce the number of illiterate people in the world. One of the most well-known is the United Nations Educational, Scientific and Cultural Organization (UNESCO). UNESCO has a program called the Global Education Initiative (GEI) that is working to improve the quality of education in developing countries.

Another organization that is working to reduce the number of illiterate people in the world is the World Bank. The World Bank has a program called the World Literacy Program (WLP) that is providing financial support for literacy programs in developing countries.

There are many other organizations that are working to reduce the number of illiterate people in the world. It is important that we all work together to reduce the number of illiterate people in the world so that everyone has the opportunity to learn and to improve their lives.
